## EDUCATION

### The University of Texas at Austin

August 2021 – May 2025

*B.B.A. in Management Information Systems | Minor: Supply Chain Management*

- Major GPA: 3.64 | Honors: University Honors (Spring 2022, Fall 2023, Spring 2024)
- Relevant Courses: Database Management, Analytics Programming, Predictive Analytics & Data Mining, Business System Development, Enterprise Cloud Computing, IT Management, Web App Development, Supply Chain IT, Project Management

## EXPERIENCE

### Lead Undergraduate Research Assistant

August 2022 – May 2025

*McCombs Behavioral Research Laboratory | Austin, TX*

- Led development of a GPT-4-based summarization platform, managing a team of 5 to convert academic research into accessible summaries using generative AI
- Designed and deployed a Python/OpenAI API pipeline for bulk PDF processing, reducing summarization time by 85% and enabling scalable rollout across 1,000+ publications from 200+ McCombs faculty.
- Partnered directly with the Dean of Research to implement the tool across classrooms, driving engagement and expanding access to complex research
- Coordinated 40+ behavioral studies and analyzed 1,500+ consumer responses using Python and Excel, ensuring IRB compliance, data accuracy, and on-time dissertation delivery for PhD researchers

### Supply Chain Analyst Intern

May 2024 – August 2024

*Aramco | Houston, TX*

- Automated data extraction from SAP using SQL and Python, enabling real-time KPI tracking and improving procurement reporting accuracy by 99%
- Managed end-to-end lifecycle of 125+ requisitions and issued 50+ purchase orders worth \$320K+, reducing backlog by 40% through vendor coordination and process improvements

### Teaching Assistant

July 2023 – December 2023

*McCombs School of Business | Austin, TX*

- Advised over 100 students in relational database design and advanced SQL, driving hands-on mastery through applied learning and project-based support
- Facilitated live technical demos in Oracle SQL, MongoDB, Azure, and Snowflake, accelerating student proficiency with enterprise-grade data platforms

### Student Technical Consultant

January 2023 – December 2023

*Technology Consulting Group | Austin, TX*

- Developed a blockchain simulation using Hyperledger Fabric to automate emissions tracking across the LNG value chain, supporting Net Zero and ESG reporting initiatives
- Authored a strategic research report on emissions monitoring technologies, integrating sustainability analytics and regulatory trends to inform executive roadmap decisions

## PROJECTS

### Salesforce CRM Integration

January 2025 – May 2025

*Solutions Architect | The Bakari Foundation*

- Integrated Salesforce with Flipcause CRM to unify donor data and automate fundraising engagement workflows, streamlining nonprofit operations
- Facilitated stakeholder consultations and ran Agile sprints to deliver functional system architecture, custom workflows, and nonprofit-tailored reporting

### Business Management HL Research Paper

August 2019 – May 2021

*International Baccalaureate (IB)*

- Conducted market research and web analytics for a \$1B+ real estate firm in Saudi Arabia, delivering competitive intelligence that optimized marketing spend, improved SEO strategy, and enhanced digital brand visibility.
